# RE MIDAG

MADE IN ITALY

REMIDAG SRL is a brand-new company with almost 30 years of experience. We manufacture and distribute worldwide stainless steel **coffeegrinders** and professional equipment for Bars & Restaurants.

Desire to grow, focus on what are market demands and our customers' needs have led us to give birth to this new company, founded on a fundamental value: the quality of **MADE IN ITALY**.

The continuous research of materials and most recent technologies, the added value of an elegant design, the **strength** of a product lasting over time, the attention to **details** and finishing, these are the **qualities** that characterize the full range of our products.

Our range offers high-level performance thanks to stepless micrometric grinding adjustment. Compact and robust, our products come with flat burrs measuring 58, 64, or 83 mm.

With REMIDAG, you have the opportunity to choose the solution that best suits your coffee preparation preferences. Our grinderdosers with lever offer a traditional experience and the convenience of having freshly ground coffee always at your fingertips.

For those who prefer modern technology, our on-demand coffee grinders with a full-touch screen ensure consistently fresh coffee, ground on the spot. Our new intuitive display makes the user experience even simpler, faster, and more precise, offering complete control over coffee preparation.

## REMIDAG:

precision and reliability  
for a perfect espresso

## MST-58P E

ON DEMAND Ø 58 mm

Modello/Model	MST-58P E
Macine/Burrs	Ø 58mm Piane/Flat
Campana/Hopper	500 g
Dimensioni/Dimensions	15,5x23x 38,5(H)cm
Peso/Weight	8 Kg Netto/Net
Potenza/Power	350Watt. 220-240v/ 50-60Hz.
Giri/min/Rpm	1400 rpm
Imballo/Packaging	20,5 x 30 x 50 (H)cm 9 Kg Lordo /Gross

### CHARACTERISTICS:

- New full touch display, easy and intuitive
- New Silent System technology
- Humidity and temperature sensor
- Consumption statistics
- Stepless micrometric adjustment of the grinding
- Shortened output pipe to reduce retention of ground coffee
- Removable coffee outlet duct for easier cleaning and more constant doses
- Single dose in less than 3 seconds
- Single/double dose dispensing also with press button
- Adjustable filter holder support
- Triple dose activation on request

### OPTIONAL:

- PR-STACO Pressing unit that can be applied under coffee grinder's display
- 1200g Hopper
- 110V version available

**REMIDAG**  
MADE IN ITALY

## MST-64P EV

### ON DEMAND Ø 64 mm

Modello/Model	MST-64PEV
Macine/Burrs	Ø64 mm Piane/Flat
Campana/Hopper	1200 g
Dimensioni/Dimensions	18x 24x 50,5(H)cm
Peso/Weight	12Kg Netto/Net
Potenza/Power	400 Watt. 220-240v/ 50-60Hz.
Giri/min/Rpm	1400 rpm
Imballo/Packaging	24 x 38,5 x 50,5 (H)cm 13Kg Lordo /Gross

#### CHARACTERISTICS:

- New full touch display, easy and intuitive
- New Silent System technology
- Humidity and temperature sensor
- Consumption statistics
- Stepless micrometric adjustment of the grinding
- Shortened output pipe to reduce retention of ground coffee
- Removable coffee outlet duct for easier cleaning and more constant doses
- Single dose in less than 2 seconds
- Single/double dose dispensing also with press button
- Adjustable filter holder support
- Triple dose activation on request

#### OPTIONAL:

- Also available in the simple multilingual display version, with LED backlit capacitive controls in 7 different colors
- PR-STACO Pressing unit that can be applied under coffee grinder's display
- RED SPEED Burrs
- Smart cooling fan
- 110V version available

## MST-83P E

ON DEMAND Ø 83 mm

Modello/Model	MST-83P E
Macine/Burrs	Ø 83 mm Piane/Flat
Campana/Hopper	1200 g
Dimensioni/Dimensions	21,5x24x 61(H)cm
Peso/Weight	19Kg Netto/Net
Potenza/Power	650 Watt. 220-240v/ 50-60Hz.
Giri/min/Rpm	1400 rpm
Imballo/Packaging	24,5 x 39 x 63 (H)cm 20 Kg Lordo /Gross

### CHARACTERISTICS:

- New full touch display, easy and intuitive
- Humidity and temperature sensor
- Consumption statistics
- Stepless micrometric adjustment of the grinding
- Shortened output pipe to reduce retention of ground coffee
- Removable coffee outlet duct for easier cleaning and more constant doses
- Single dose in less than 2 seconds
- Single/double dose dispensing also with press button
- Adjustable filter holder support
- Triple dose activation on request

### OPTIONAL:

- Also available in the simple multilingual display version, with LED backlit capacitive controls in 7 different colors
- PR-STACO Pressing unit that can be applied under coffee grinder's display
- RED SPEED Burrs
- Smart cooling fan
- 500 g Hopper

## MST-58P Z

ON DEMAND Ø 58 mm

Modello/Model	MST-58P Z
Macine/Burrs	Ø 58mm Piane/Flat
Campana/Hopper	-
Dimensioni/Dimensions	15,5x23x 37,5(H)cm
Peso/Weight	8 Kg Netto/Net
Potenza/Power	350Watt. 220-240v/ 50-60Hz.
Giri/min/Rpm	1400 rpm
Imballo/Packaging	21x 30 x 50 (H)cm 9 Kg Lordo /Gross

### CHARACTERISTICS:

- Zero retention system, ideal for single-serve portions
- New full touch display, easy and intuitive
- New Silent System technology
- Humidity and temperature sensor
- Consumption statistics
- Stepless micrometric adjustment of the grinding
- Shortened output pipe to reduce retention of ground coffee
- Removable coffee outlet duct for easier cleaning and more constant doses
- Single dose in less than 3 seconds
- Single/double dose dispensing also with press button
- Adjustable filter holder support
- Triple dose activation on request

### OPTIONAL:

## **MST-64PA/T/M**

**DOSER ø 64 mm**

Modello/Model	MST-64PA/T/M
Macine/Burrs	Ø64 mm Piane/Flat
Campana/Hopper	1200 g
Dimensioni/Dimensions	18x 32x 51,5(H)cm
Peso/Weight	12Kg Netto/Net
Potenza/Power	350Watt. 220-240v/ 50-60Hz.
Giri/min/Rpm	1400 rpm
Imballo/Packaging	24 x 38,5 x 50,5 (H)cm 13Kg Lordo /Gross

### **CHARACTERISTICS:**

- Traditional system of immediate lever dose dispensing
- Strong, compact and reliable
- Stepless micrometric adjustment of the grinding
- Possibility to adjust the dose from 5 to 9.5g
- Beat counter

### **VERSIONS:**

- **AUTOMATIC:** every 6 doses of coffee it automatically starts grinding again and stops only when the dispenser is full
- **MANUAL:** With manual on-off switch
- **TIMER:** With time switch

### **OPTIONAL:**

- Titanium Burrs
- Smart cooling system
- 110V version available

## MST-83PA/M

DOSER Ø 83 mm

Modello/Model	MST-83PA/M
Macine/Burrs	Ø 83 mm Piane/Flat
Campana/Hopper	1200 g
Dimensioni/Dimensions	21,5x36x 61(H)cm
Peso/Weight	19Kg Netto/Net
Potenza/Power	650 Watt. 220-240v/ 50-60Hz.
Giri/min/Rpm	1400 rpm
Imballo/Packaging	24,5 x 39 x 63 (H)cm 20 Kg Lordo /Gross

### CHARACTERISTICS:

- Traditional system of immediate lever dose dispensing
- Strong and reliable
- Stepless micrometric adjustment of the grinding
- Possibility to adjust the dose from 5 to 9.5g
- Beat counter

### VERSIONS:

- **AUTOMATIC:** every 6 doses of coffee it automatically starts grinding again and stops only when the dispenser is full
- **MANUAL:** With manual on-off switch

### OPTIONAL:

- **RED SPEED** Burrs
- Smart cooling system

## SP-A2

Modello/Model	SP-A2
Dimensions	18x22x33(H)cm
Weight	8 Kg Net
Power	350Watt. 220-240v/ 50-60Hz.
Rpm	1400 rpm
Packaging	20,5 x 30 x 50 (H)cm 9 Kg Gross

### CHARACTERISTICS:

- The ideal tool for making top quality juices
- Lever ignition system besides ensuring safety, also allows to work easily and to avoid any sketches leakage from the tray
- Special processing of the steel pine cone, thanks to its 1400rpm it centrifuges the juice making it dense, filtered and intense
- Inclined tray prevents the formation of liquid residues inside it, ensuring constant quality with each juice
- pine cone, tray and drip-proof saucer can be easily removed and washed in the dishwasher

## FN-A1

Modello/Model	FN-A1
Dimensions	17,5x18,5x47(H)cm
Weight	3 Kg Netto/Net
Power	150Watt. 220-240v/ 50-60Hz.
Rpm	1500 rpm
Packaging	20,5 x 30 x 50 (H)cm 4 Kg Gross

### CHARACTERISTICS:

- Ideal for making milkshakes, iced shaken coffees, for mixing cocktails or powdered preparations.
- Elegant design, solid structure in aluminum and stainless-steel
- A silent and powerful 15.000rpm engine grants great results also under effort.
- Ease and speed of use thanks to the glass holder ignition system
- It can also be used with the Boston cocktail glass
